

Calendar – Make Up Days

We have some teachers who have approached us about spring make up days. Seems they want to run in a “Ragnar Run” somewhere. They are expecting two teams to participate or 24 teachers. The race starts on Friday, June 9. They are wondering if they can schedule to go and we would schedule around that date if we have bad weather days. So I will be asking at the next board meeting for support on the following make up day plan.

<u>Bad Weather Day</u>	<u>Make Up Day</u>	<u>Comments</u>
1 st Day	April 17 with students	April 17 PD day moved to June 8
2 nd Day	April 17 and June 8 with students	PD on June 12 and 13
3 rd Day	April 17 and June 8 with students	PD on June 12, 13, and 14

- This plan assumes we will not make up the 3rd day with students but will add a 3rd PD day instead.
- We have not had more than three days off since I have been here so no sense making a plan for more. We will just react if that happens.
- In the case of “cold days,” we will try to make up as a teacher day as we have done the past few years. If we have more than two of those days, the 3rd “cold day” would become the first Day of make up with students.

This plan will be included on the September board agenda. Your employee handbook gives me the option to do everything here except not make up the 3rd day with an additional PD rather than a student day. I am assuming it will not be an issue so it will be included under the Consent Agenda under “Inclement Weather Days.”

Teacher: Weather conditions affecting only the ability to transport students safely will generally not be considered a reason for closing a facility. Under such circumstances, the District Administrator may determine:

- **School is closed. The day will be made up by students and teachers during an otherwise scheduled break or as an additional school day added to the end of the school calendar.**
- **School is canceled but teachers report. The student day will not be made up.**
