

Standards-Based Academic Program Report

June 24, 2019

SL10 Standards-Based Academic Program

Whereas, the Board expects the district to have a standards-based program of instruction that complies with all relevant federal and state laws, challenges individual students to meet their potential and includes clearly defined academic content standards for specific courses of study;

The Superintendent may not:

1. Fail to develop a curriculum aligned with and designed to enable students to meet or exceed state and nationally recognized model content standards and proficiencies.
** We have adopted the state standards. Our schools Exceed or Significantly Exceed State expectations as designated by the State.*
2. Fail to assess student progress toward achieving the content standards.
** Our curriculum is aligned with the required content standards. We do internal monitoring to track student progress.*
3. Fail to ensure that the academic program includes all legally required courses.
** All legal requirements are met.*
4. Fail to ensure that the academic program protects against discrimination based upon age, sex, race, religion, national origin, ancestry, creed, pregnancy, marital or parental status, sexual orientation or mental, emotional or learning disability.
** We continually work to ensure our curriculum is unbiased and does not discriminate.*
5. Fail to appropriately utilize staff, parents, and students in developing the academic program.
** Each year we focus on a specific subject K12 to review curriculum and classroom materials. This is a team process.*
6. Fail to ensure that all academic programs are regularly evaluated and modified as necessary to assure their continuing effectiveness.
** We review all programs regularly.*
7. Fail to ensure that all staff members are qualified and trained to perform the responsibilities assigned to them.
** Staff assignments are based on best-qualified person for the position. We provide individual training as well as our mentor program.*
8. Add or eliminate academic programs without Board approval.
** No programs eliminated this year.*
9. Implement any enrollment management plan without Board approval.
** We do have an open enrollment cap on any program.*
