

Community Pool and Fitness Center Report

July 25, 2022

SL15 Community Pool and Fitness Center

Whereas the Board expects the Community Pool and Fitness Center to be available to the public, and further expects all physically able students to learn to swim;

The Superintendent may not:

1. Permit the facilities to operate in violation of relevant state statutes and codes.
** No violations of which I am aware. State reports were provided to the Board in September 2021 as part of SL8: Asset Protection.*
2. Permit the facilities to operate with unsafe conditions or without qualified supervision.
** We have had a number of issues come up this past year where the pool was closed due to certain situations. The board was informed when this happened..*
3. Close the pool without Board approval.
** No extended closures this past year.*
4. Fail to adopt a structured curriculum for swimming instruction.
** Red Cross Swimming Curriculum is used.*
